Education

William & Mary, Williamsburg, VA

August 2021 – May 2025

Bachelor of Science in Computer Science, Minor in Data Science

- Cumulative GPA of 3.77, *magna cum laude*, Dean's List Fall 2021 – Spring 2023, Spring 2024 – Spring 2025
- Relevant courses include Data Structures, Algorithms, Finite Automata, Network Systems and Design, Applied Machine Learning, and Web Programming

Technical Skills

Certifications: AWS Certified AI Practitioner (July 2025)

Languages: Java, Python, C, C++, HTML, CSS, JavaScript, SQL

Libraries & Frameworks: React, TensorFlow, Scikit-Learn, NumPy, Pandas, PyTorch, MediaPipe, OpenCV, Hugging Face, TreeSitter

Tools & Technologies: Git, GitHub, SDL2, ArcGIS, Microsoft Office Suite, Google Suite, LaTeX, Google AI Edge, npm, Node.JS

Project Experience

AST Aligner, Software Engineering Course | HuggingFace, TreeSitter, PyTorch, React

September 2024 – December 2024

- Pioneered a PyPI library and frontend tool to visualize code snippets displayed in a TreeSitter Abstract Syntax Tree.
- Leveraged multiple tokenizers from HuggingFace and utilized tools such as PyTorch and React.
- Collaborated within a six-person team using Git for version control, peer reviews, and agile task management.

MouseCam | Python, OpenCV, Google AI Edge

February 2026 – Present

- Built a Python program that allows users to control their mouse using a webcam and hand gestures utilizing Google AI Edge's hand landmark detection API and OpenCV.
- Bolstered my experience with graphics, requirement gathering, and bottom-up development.

Personal Website | HTML, CSS, React, npm, Node.JS

May 2025 – Present

- Developed and deployed a responsive personal website using React, HTML, CSS, and JavaScript to showcase skills and projects.
- Implemented GitHub Pages for version control and accessibility, enhancing professional visibility.

Kill Alien, Game Design Course | C++, SDL2, MinGW

February 2025 – May 2025

- Engineered a fully functional game using C++ and SDL2 in a team of four, following agile practices and abstraction principles.
- Recognized as the best game of Spring 2025 through votes from fellow classmates.

Custom Stream Overlay, Super Smash Bros. Club | HTML, CSS, JavaScript

December 2024 – February 2025

- Expanded the open-source Ultimate Stream Tool project utilizing HTML, CSS, and JavaScript to revitalize interest in Twitch livestreams.
- Used to represent the university on a national level, including 17th place out of 154 teams during the Spring 2025 circuit.

Occupational & Leadership Experience

After School STEM Instructor, Play-Well TEKnologies, Northern Virginia, VA

October 2025 – Present

- Instructed elementary-aged students about engineering fundamentals using various LEGO kits and lesson plans.
- Coordinated with management and school staff to adapt to evolving instructional requirements and daily class operations.

Customer Service and Tech Representative, USA Esports Network, Annandale, VA

July 2025 – September 2025

- Managed and secured a high-traffic storefront housing 80+ high-end computer systems and a central server.
- Served as the sole on-site employee, providing end-to-end technical support, POS management, and administrative oversight.
- Resolved hardware and software issues for customers while maintaining strict facility security and quality standards.

Orientation Aide, Student Transition Engagement Programs, Williamsburg, VA

August 2022, 2023, 2024

- Personally welcomed over 50 new students into the William & Mary community over the course of 3 fall Orientations.
- Consulted with over 100 fellow upperclassmen each year to organize bonding events and ensure the safety of new students.

Programming and Robotics Counselor, TIC Camp, McLean, VA

June 2023 – August 2023

- Instructed 30+ adolescents in computer science and robotics fundamentals over three intensive two-week sessions.
- Developed and adapted technical lesson plans for diverse skill levels, fostering positive student engagement and staff collaboration.

Supplementary Experience

Musical Involvements, Williamsburg, VA

August 2021 – May 2025

- Represented William & Mary as a trumpet player at March Madness 2025, the institution's first NCAA appearance.
- Volunteered as the Pep Band's Music Librarian, where I maintained and organized a physical library of over 100 pieces.
- Served as Media Director for Delta Tau Omicron Co-ed Music Fraternity.
 - Successfully advertised four recruitment seasons and four philanthropy events using custom Canva graphics.
